EDUCATION

Stephen F. Austin State University (SFA), Nacogdoches, Tx
Bachelor of Science in Computer Science, May 2022

SKILLS

I am looking for a full stack developer role, and here is my experience in both front/ backend:
   Front End Languages: AngularJS, HTML5, CSS, ReactJS, VB.Net
   Back-End Languages: Python3, C/C++, Java, PostGresSQL & MySQL, C#

EXPERIENCE

Consultant Associate | FenwayGroup| Nacogdoches, Tx   *August 2017- August 2018*

Worked with companies such as Southwest Airlines to create databases, and SALT Lending to create block-chains for cryptocurrency.
- Work in a team to manage big data and their database for big companies such as Southwest Airlines, Discord, and Salt Lending.
- Exposure to coding languages such as **Java** and **Python3**.
- The company uses **SQL** and **Postgres** as the database management system.
- Continued to learn and absorb from other co-workers who had more knowledge than me.

IT Support Analyst Intern | Accenture | Houston, Tx   *August 2016- August 2017*
Interned with Local Technology Support department within the Accenture Houston Office to manage and support company assets:
- Shadow LTS co-workers at Accenture to do presentation for the New Hire boarding.
- Lead the New Hire boarding presentation when it came to setting up Accenture credentials to access their accounts/laptops.
- Provide clients customer service at the front window.
- Help clients develop solutions when there is a technical issue with hardware.
- Worked in a team environment and established a healthy working environment with co-workers.
- Exposure to setting up the Innovation Hub on the 18th floor.
- Provided LTS to consultants in Houston.
- Aided with consultant laptop upgrades from Windows 7 to Windows 8.
- Reimaged laptops & transferred consultant information one laptop to another.
- Traveled with LTS to help set up Accenture networks on newly acquired buildings that were being set up.
- Replaced broken laptop screens on HP and DELL.
- Help troubleshoot audio problems in meeting rooms that were having technical difficulties.
